## SINGLE MALT SCOTCH

---

*Talisker is the only distillery on Skye which produces a single malt with a distinctive taste and "marine" character.*

|-------------|------------------|------|

*Most prominent and urbane of the Scottish Island which produces the lustiest and most unique single malts owing their originality and vigor to the robust sea air, which bestows a salty tang to the aroma and the intense islay peat, which in some moors lays an astounding thirty-feet deep and imparts a unique iodine flavor to the distillate.*

*From the serrated seaside bluffs of this lonely, wildlife teeming region come splendid single malts which are lighter and more floral than those from other regions, subtly imparting a faint briny aftertaste, due to their proximity to the North Atlantic.*
